<p>NLT Product Change Notice PCN Tracking Number: NLT-PP-4992</p>

1. Product Type Name

Size	Resolution	Type Name
6.5-inch	XGA	NL10276BC13-01
		NL10276BC13-01C

2. Description of change

2.1. Material change

Changed portions		Remarks
Driver IC	Due to discontinuation of the source and the gate driver ICs, the driver ICs will be changed.	-
Signal processing board	-Due to consolidation of the timing controller IC, the IC will be changed. - According to the change of driver ICs and timing controller IC, wiring pattern of the board and mounted parts on the board will be changed.	No signal interface and interface connecter will be changed.
FPC	According to the change of driver ICs and timing controller IC, wiring pattern and shape of the FPC will be changed. (The FPC connects the panel and the signal processing board in the product.)	-
LED	Due to discontinuation of the light source LED, the LED will be changed. According to the change of LED, White chromaticity of products will be changed.	See “2.2. Specification change”.

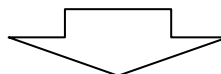

According to the change, there will be no change on optical (except for white chromaticity), electrical, mechanical specifications and reliability. And there will be no influence on UL approval and RoHS compliance.

2.2. Specification change

Current

Parameter		Condition	Symbol	min.	typ.	max.	Unit	Remarks
Chromaticity	White	x coordinate	Wx	0.283	0.313	0.343	-	Note1
		y coordinate	Wy	0.299	0.329	0.359	-	

Note1: These coordinates are found on CIE 1931 chromaticity diagram.

After change

Parameter		Condition	Symbol	min.	typ.	max.	Unit	Remarks
Chromaticity	White	x coordinate	Wx	0.263	0.313	0.363	-	Note1
		y coordinate	Wy	0.279	0.329	0.379	-	

Note1: These coordinates are found on CIE 1931 chromaticity diagram.
