DESCRIPTION AND PURPOSE:

ON Semiconductor is announcing a change in carrier tape used for a selection of die sales devices as part of on-going quality improvement actions. Two changes are being announced:

- 1.) Change of the pocket size for certain devices to ensure proper fit of the die inside the pocket to provide safe transport. The change will ensure there is no unnecessary movement (rotation, die flipping) or risk of mechanical damage due to impact with the die during sealing. This change applies to the following part numbers:
