Product information

Improved outer packaging for EPCOS SMT inductors and chokes

The 330-mm reels of the following SMT inductors will in future be better protected against dust and dirt. For this purpose, the blister trays, in which the reels are packed, will be heat sealed with a thermoplastic foil.

Affected products

Ordering code	Plant	Planned introduction
B82422*8	Szombathely, Hungary	July 2017
B82432*		
B82442*		
B82450 (A*A, H*, A*E, A*C*8, A*D)		
B82453*		
B82462*		
B82464A/G*		
B82496*8	Heidenheim, Germany	November 2016
ACT45B*(B82787*)		
B82789*		
B82790*		
B82799*		

This change in the outer packaging has no effect on the packing of the components on the reel and thus no effect on the quality and reliability of the affected products. The electrical and mechanical properties of the components are also unchanged.

During a transitional period, mixed supplies of sealed and unsealed blister trays may occur.
