TE Connectivity

Product Change Notification: E-17-003750

PCN Date: 07-AUG-17

Customer: Future Electronics(0000080100)

Location: WORLDWIDE

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

DEUTSCH DT2pin and 3pin Plug and Receptacles Global Footprint Initiative (No Cap)

Description of Changes

The Industrial and Commercial Transportation (ICT) business unit of TE Connectivity (TEC) will be adding to existing North America (NA) based footprint for standard DEUTSCH DT 2pin and 3pin plug and receptacle connectors. Footprint additions are: TEC Suzhou (China) and TEC Empalme, SON (Mexico). Production location will be based on product type for connectors with or without rear caps. All manufacturing plants are ISO/TS 16949 certified. Also, part of this initiative will be some design changes. Plug front seals will use seal retention version, improved product marking and date coding. Legacy DEUTSCH part numbers remain same, PN revision change only, raw material-color remain same, interchangeable and backwards compatible. Box package will change to use standard automotive AIAG compliant box size. See attached presentation and product drawings for more information.

Reason for Changes:

Product Improvement. Dear Customer, TEC-ICT global product supply has continued to grow outside of NA markets. In response to this change, TEC-ICT is implementing a local-for-local footprint strategy to better support these global market trends. Advantages are shorter lead-times, simplified logistics and flexibility to support local markets
