<b>Specification Change Notice</b>
------------------------------------

Dear sir/madam:

Thank you for using Tianma products in your application. The following are observations and conclusions made by Tianma Japan.

**Specification change notice**

Regarding the LED driver's interface connector of below products, Tianma Japan eliminates recommendation of a plug connector, 51146-xxxx series (Molex).

Because Molex changed the sales policy of this connector from positive sales promotion to negative sales promotion to new opportunities.

You should procure a plug connector from STM directly due to this specification change.

The contact information of STM is shown in below.

Although below products are using the corresponding connector of this specification change notice, these products do not change the connector of Molex. However, Tianma Japan will implement the running change in the future. If you have a new opportunity of these products, please inform our overseas sales promotion department
