

Subject: NOR Flash Allocation Update for Q3 2018

Date: June 19, 2018

Dear Valued Customers,

We continue to experience strong demand for our NOR Flash products that exceeds our supply capacity to meet customer requirements. We reduced the number of affected products compared to Q2 2018. As a result, we are updating the list of products we are placing on allocation. Below is the list of affected parts:

PNOR Products		SPI Products	
AL008J	GL128S	FL164K	FL512S
AL016J	GL256P	FL064L	KL512S
JL032J	GL256S	FL127S	KS512S
JL064J	GL512S	FL128S	FS512S
GL032N	GL512T	FS128S	FL01GS
GL064N	GL01GP	FL128P	FS01GS
GL064S	GL01GT	FL256S	
GL128P			

We foresee constrained supply for NOR Flash throughout 2018. The allocation process is a collaboration between our channel partners, end customers, and Cypress. We recommend that you place orders for Q3 2018 through to Q4 2018 demand as soon as possible. This will enable our operations to efficiently run the allocation process. In case you order through channel partners, please work with your channel partners to ensure you get correctly identified as the end-customer to support your allocation.

Cypress remains committed to the NOR Flash business and will continue to push for maximum supply to minimize supply issues for our customers.

If there are any questions please contact your local sales representative.

Regards

Rainer Hoehler, Ph.D.
Vice President, Flash Business Unit
