

SABIC Material Change

Hirose Electric Co., Ltd.
Quality Assurance Group

HRS has used
SABIC's PBT and PC material
for housing of wide-variety-products

but...

The majority of the materials are not universal spec that multiple SABIC production sites can produce, but spec that only SABIC Japan can produce.

Due to this background...

SABIC's supply to HRS has been chronically
unstable

supply volume & price

unstable

despite HRS's repeated requests to improve

So,

HRS decided to change the supplier
to the suppliers with stable supply

We're selecting equivalents from
other suppliers' materials

They are equivalents, so,

HRS will keep the current P/N and migrate to new material by running change.

We avoid customers' additional procedures to requalify and rebook new P/N

Running change will sequentially go off
starting from 2019 **August**,
by product

* This schedule is subject to change *
The products containing four phthalic
acid material moves in RoHS2 schedule

2019 **August**

~2022 **June**

▲
Product A change

▲
Product B change

▲
Product C change

HRS performs the following evaluation.

Equivalent results in basic connector
performance
verify equivalence
between old and alternative material.

Appearance	
+	
Electric Performance	[Contact Resistance Insulation Resistance Voltage Proof
+	
Environment Load	Heat Shock → check damage by expansion and shrink

HRS provides representative samples

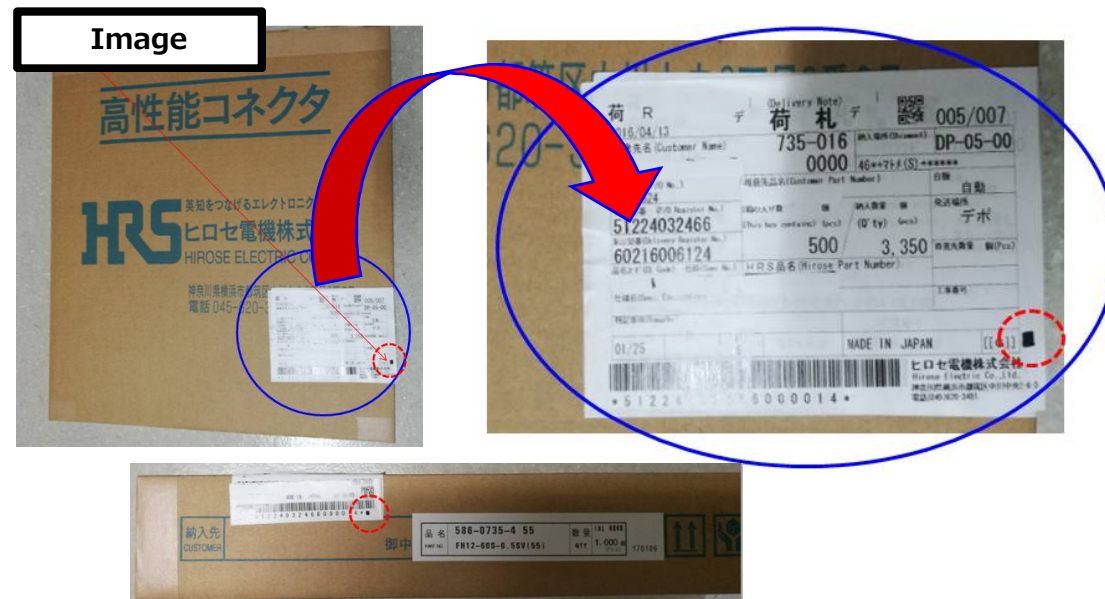

representative samples
= same type of the products HRS evaluates

Products are selected
mainly from large pin count type,
with which the evaluation results becomes severer.

Although it will be a running change without P/N change, we'll indicate new ones on package for identification.

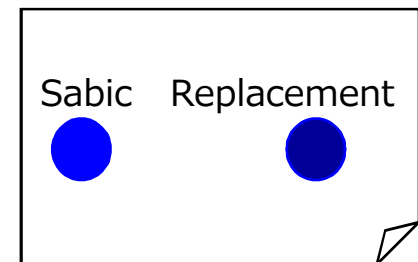

Delivery Slip

We want customers' attention to...

1. Possible slight change for color tone

Customer's line operators
and incoming inspectors need to be notified.
HRS sales representative will provide
color sample in data file upon request.

2 . Material Certificate

If material certificates
of new connectors are needed,
please contact your HRS sales representative

Suppliers of the alternative materials are...

Mitsubishi Engineering-Plastics Corporation

Both are reliable Japanese suppliers,
with good service to Japanese connector
manufacturers, especially in automotive category.

They have long business history with HRS.
They keep enough time before any discontinuation
or change of materials.

Revision history

Revision date	Revision page	Revision details
2019/4/24	P8	In order to match the content of the product change notification, we revised the timing of change. 2019 April → 2019 August ~2022 March → ~2022 June
2019/4/24	P11	The photo was deleted since only the delivery note is marked with "■". "■" is not marked on article slip.
