

Multilayer Ceramic Capacitors / Notice of Discontinuation (Offering alternative items)

To our valuable customers,

TDK would like to inform you of Product Discontinuations for some Multilayer Ceramic Capacitors.

The affected items were released in 2003. Thanks to capacitance increases, much smaller sized and higher rated voltage products are currently recommended on TDK's Website.

TDK decided to discontinue production of the affected items, for which market demand has declined, to focus on productivity improvements for future increases in MLCC demand.

The following TDK items are recommended for the replacement of current items.

For the replacement of items which are used for automotive applications including car navigation and infotainment, TDK recommends the Automotive grade MLCC (CGA Series).

Current items will be supported until the Automotive grade MLCC is ready.

TDK has also decided to discontinue production of multilayer ceramic leaded capacitors. However, TDK has no alternatives to recommend.

TDK needs your help to change orders to other suppliers or inform TDK of last time buy quantities.

1. Affected items

Please see the attached list.

2. Help needed

Please change to TDK recommended items except for multilayer ceramic leaded capacitors and automotive grade parts.

If replacement with TDK's recommended items is not acceptable, please change the order to other suppliers or inform TDK of last time buy quantities.

Due date of last time buy order : End September, 2020

TDK stops production : End March, 2022
