

**Affected Products - AC/DC "K-Series"**

Dear customers,

We herewith inform you that to support our smart manufacturing process and traceability we have changed the datecode marking on our "K-Series" AC/DC products.

Currently, the products are identified with a datecode laser marked on top of the housing. After the change a separate lot number label with a machine-readable Datamatrix 2D-Code along with the datecode will be affixed to the side of the product.

There is no change to the performance or specification of the products.

**Details about affected Product series:**

**Before:** Datecode "YYWW" laser marked on top side of product

**After:** 2D-Code + Lot Number (Datecode "YYWW") attached to side of product
