**Product Change Notification:** Formal notice of thread length change on the housing of PV0, PVA3, PV7, PV8, & PV9 series parts.

This change is considered a “running” change and is currently in the process of being implemented. **This change does not affect normal Form, Fit, and Function of the switch nor its standard mounting.** This change is driven internally to improve on product quality, product control and identification thru out the manufacturing process. As stated above, this change is in the process of being implemented and there is the likelihood that there may be some mixed inventory in the supply chain.

**Impacted Part list:**
