

Based on EU directives, CTS is obliged to disclose that we have recently shipped these/this order(s) using 5/6 RoHS nuts and washers. **For immediate action, please let us know if this is acceptable.**

I would like to emphasize that there is **no** impact to the form, fit and function. For replacement of 6/6 RoHS hardware, it may take CTS about 50-60 days. In order to shorten the wait, our Operation team is actively looking into procuring this hardware from the open market.
