

Product Change Notification (PCN)

Date: 03.11.2021

Panasonic PIR sensors (PaPIRs) – Change of product material

We would like to inform you about the change in the product material for the product series listed under number 1.

1. Target Products

EKMB series: EKMB11* & EKMB12*
AMN series: AMN1*, AMN2* & AMN4*

2. Contents

Since our previous 3D-MID (Molded Interconnect Device) supplier has stopped production, we have to switch to an alternative 3D-MID supplier.

3. Schedule

Last time buy (LTB) for current products will be March 2022.

The LTB order must cover the demand between March 2022 and August 2022, as we cannot accept any further orders for additional quantities during this period.

Production will be gradually converted from August 2022 towards the new 3D-MID components.

Please contact your local sales representative by the end of December 2021 at the latest if you require further explanations or samples.

[Locations search | Panasonic Industry Europe GmbH](#)

4. Specification, function and performance remain unchanged.
