2 Type of change

- Modified packaging label

3 Detailed description of change

The following table describes the modifications applied to the new packaging label. All listed product types share the same packaging label design. To better visualize the modifications, colours and numbers were added to this chapter to cluster information into sections (the colours and white numbers are therefore not part of the new label layout). An old and a new label has been added as an example for visualization.

Product identification section: To improve readability, all the information concerning product identification in this group is clustered.	1
Product conformity section: Following content has changed: <ul style="list-style-type: none"> Lead-free symbol has been removed as the lead-free declaration is part of the RoHS declaration, see reference: PCN from 2018 D10-024-838 UKCA conformity symbol added to CE conformity symbol, see reference: PCN from 2021 D10-059-659 SCHURTER AG CH-6002 Luzern added 	2
Product logistics section: Identical information, slightly rearranged. "Date" changed to "Date Code".	3
Product approval section: Identical information, slightly rearranged. Current rating added.	4
Product rating section: (N/A) No information was featured on old label & no change was implemented.	5
Origin information section: Identical information, slightly rearranged. Factory Code identifier "FC" added.	6
