LFPCN210930

Subject: Discontinuation notice of screws attachment for TO-240 bipolar modules in ASIA and AMERICAS.

To whom it may concern,

Littelfuse would like to inform you that the screws attachment of the Littelfuse TO-240 bipolar modules will be discontinued for deliveries in above mentioned regions.

Reason for Change:

- Following PCN#LFPCN210915 edited on September 15th and to harmonize the change to the other countries worldwide and avoid differences between countries, it has been decided to extend the PCN to all countries.
- This change goes also towards an environmental desire to lighten our parcels of TO-240 modules and avoid shipping screws to customers who don't use them.
- The 3 M5x10 terminal screws for TO-240 were never been counted as part of the module cost for our customers. For those customers who still want to use M5x10 screws from us, it can be purchased with PN: IX500301 – Please contact me or your Sales contacts to get price, MOQ and lead time. We also give you the details of the screws used by Littelfuse to give you the opportunity to procure them from local suppliers by yourselves.

M5x10 screw dimension used by Littelfuse:

TO-240	M5x10-Z4-1-Z DIN 6900-3 Steel 4.8 galvanized combination screw with spring washer + washer	
Screws	M5x10 mm	DIN 7985
Spring lock washer	M5	DIN 6905 (Similar to DIN128A Z4)
Washer	M5	DIN 6902A (Similar to DIN12S Z1)

Effective date: October 18th, 2021

Last time buy: N/A

This communication letter is for your information and acknowledgement.

If you have any other questions or concerns, please contact your local Littelfuse sales representative or Product Manager below for further assistance.

Best Regards,

Pascal Ducluzeau
