TE Connectivity

Product Change Notification: P-22-022685

PCN Date: 13-MAY-22

Customer: DISTRIBUTOR EMEA (66666663)

Location: NO CITY PROVIDED

Agreement: 120513160001

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

EVC175 Stamping Tools Insourcing phase 2.

Description of Changes

Insourcing of EVC175 Stamping Tools Phase 2. Stamping tools will be transferred from the actual Outside Vendor to TE vora (PT). This will only affect components manufacturing location. No material nor function is affected. The production location of the correspondent finished TE-product remains unchanged.

Reason for Changes:

Dear Customer, we hereby inform you about a transfer of tools. The transfer follows a strict procedure, which fully maintains quality, ability to supply and form-fit-function of the concerned products. The new manufacturing location operates under a certified quality management system in accordance with standard automotive requirements. A TE-internal release test based on the relevant part specifications will be executed before delivery. Upon request, a PPAP Level 1 will be available if it concerns a component of a TE-product, where the production location of the finished TE-product remains unchanged. If you require such a PPAP, please notify the responsible TE Sales Contact within 14 calendar days after receipt of this PCN.
