TE Connectivity

Product Change Notification: P-23-024490

PCN Date: 04-MAY-23

Customer: Future Electronics Inc (184927)

Location: Pointe Claire

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
Connectors containing size 24 contact retention clips

Description of Changes
Additional equipment for installing size 24 contact retention clips

Reason for Changes:
Product improvement. Notice of change to introduce an additional automated clipping machine to the connector assembly area, for the purpose of inserting contact retention clips in to the connector insert. The current equipment was built in 2005 and has been functioning at a very low capability for some time, requiring a lot of engineering support. Also the machine parts are becoming obsolete, so repair is no longer an option. The additional equipment will perform the same process as the current equipment. The new equipment will be validated by means of verification testing of the retention clips form and functionality prior to the equipment being released to production.

Estimated Dates:	
Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	20-SEP-2023
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
