**Subject:** RE: CN-0400 - Discontinuation of Specific NKK Products

Hello Team,

Attached is the updated PCN 400 PN file which contains "Direct Replacement", "Recommended alternate", or "discontinued" product.

For "Recommended Alternate" or "Direct Replacement" the Master list provides the dates the product is available to purchase, the two dates are July 2023 or April 2024.

There is no price increase for the replacement product.

This a reminder that the last time buy for current PCN 400 PN's to NKK's factory is June 30, 2023.

Due to the timeline to production of the replacement product, we strongly encourage you to keep current inventory to bridge the gap between old and new product, we recommend 1 years' worth of your POS records.

Again this is not a true discontinuation of product, rather it is a transition from existing product to the same product but without the ingredient dechlorane plus

NKK is working to have sample inventory of the non DP product by August 2023, so please work with your customer to ensure we will be able to provide them samples.

We understand this is a large effort, NKK Switches is ahead of other manufacturers in this required effort if Dechlorane Plus a fire retardant is an ingredient in their product.

The "rush" to complete this transition is to meet China's mandate; no product containing Dechlorane Plus will be permitted into China as of January 2024.

We truly appreciate your support and understanding.

Regards,

Renee

## Discontinuation of Specific NKK Products

Type of Change:

- Engineering     Part Number  
 Product         Appearance

Due to containing an environmentally restricted material, Dechlorane Plus, NKK Switches will be discontinuing a limited number of products as outlined on the following table. Guidelines regarding Dechlorane Plus will be coming into effect in the near future, and NKK prefers to be proactive regarding environmental responsibility. The discontinued products will include standard and custom part numbers.
