TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

D369 Standard Panel and PCB Mounting Connectors

Description of Changes

Replacement tooling and minor component geometry changes.

Reason for Changes:

Product improvement. Use upgraded mould tooling already in use on other 369 products to expand capacity and improve the performance of the connector. The opportunity was taken to introduce minor component geometry changes to improve component strength. Dimensional changes have no impact on intermateability of connectors or accessories, i.e. they are backwards compatible. The outer envelope dimensions of the connector remain unchanged.
