

NEW! Now available with Advance CertaDrive X Drivers.
The ideal choice for economical indoor commercial lighting.

CERTAMATCH SOLUTIONS for Troffer and High Bay Fixtures

The Market Trend

Average unit prices of high-running indoor LED fixtures are plummeting.

OEMs are resorting to importing and reselling finished fixtures or using lower cost components with minimal warranty or technical support in order to remain competitive.

There is Another Way...

What if you could have **high quality** components at a **competitive price**?

What if you could have onshore sourcing for **shorter lead times**?

What if your components had a **5 year limited warranty** that is serviced by your components supplier?

CertaMatch:

A Perfectly Paired Module + Driver System

- Designed for common lumen outputs
- Standard and premium LPW for external certifications
- Out of the box ready, no programming needed
- Ideal for Stock and Flow Luminaries
- Made in North America for reduced lead times
