TITLE

Fab Porting from Global Foundries to MagnaChip

DESCRIPTION OF CHANGE

This PCN is being issued to notify customers that Global Foundries in Woodlands, Singapore closed their 0.35um technology wafer production on December 15, 2018. Diodes will continue supporting orders for Global Foundries parts up to March 30, 2020 for last time buy and March 30, 2021 for last time ship.

In order to assure continuity of supply, Diodes has decided to port these parts to Magnachip Semiconductor located in Heungdeok-gu, Korea using 0.30um technology. Any packages that have Pericom logo top marking will be changed to Diodes logo during the porting.

Full electrical characterization and high reliability testing has been completed on representative part numbers. There is no change to device functionality or electrical specifications in the datasheet. Refer to the attached qualification / reliability report (embedded in this file).
