MMZ/MPZ1608、MMZ/MPZ2012, Series: Supply Status Update

Dear Valued Customers,

Thank you for your continued business and support.

This letter is to inform you of our product MMZ/MPZ1608,2012 series (Chip Beads) current delivery situation. Due to the overwhelming global demand increase we have been experiencing since last year, TDK is currently seeing longer than usual delivery times. This situation has led us into an allocation mode in order to support the existing orders to the best of our ability.

In order to reflect the limited visibility, we are moving all open order confirmation dates to 12/31/2025. This will not affect your current place in line (shipments will continue on allocation basis), but it will help us to more easily manage the backlog and hopefully the allocation calls for all parties involved.

Additionally, we would like to request your understanding and limit new orders to the minimum required to avoid further backlog build up. *Moving forward we will be revising these parts to NCNR status for all new orders effective immediately.* TDK is doing every effort to improve factory output currently and improve lead-times in the near future.

Affected products currently allocated

- Chip Beads “MMZ/MPZ1608,2012 series”
(Detailed parts list attached)

Thank you for the consideration of TDK.

TDK Corporation of America
Magnetics B.G.
