## Supply chain issues – follow up

Dear valued Customer,

As an update to our last letter from December 22, 2022, Littelfuse would like to provide further information.

Littelfuse is resuming the production of the part numbers listed in the Appendix 1, using an alternative, qualified material. Littelfuse issued a separate PCN EIC-1114, and there will be no form, fit or function changes.

The remaining part numbers, listed in Appendix 2, may require either minimal specification changes or an additional qualification. Littelfuse's teams are working with high priority on the technical details and should be able to provide more information latest by the end of January 2023.

Please contact your local Littelfuse sales representative for assistance if you have any further questions or concerns.

Kind regards

Krzysztof Olesiejuk  
Product Marketing Manager  
Integrated Circuits  
Littelfuse Europe GmbH  
kolesiejuk@littelfuse.com

## Appendix 1

The production of the following part numbers has been resumed.

CPC1117N  
 CPC1117NTR  
 CPC1215G  
 LCA120L  
 LCA120LSTR

## Appendix 2

The following part numbers may require either minimal specification changes or an additional qualification.

CPC1001N	CPC1540GS	CPC2017N	FDA215
